

FlightGest

CH2000 (Alarus) Checkout

- Complete the airspeed and equipment sheet:

<http://home.nc.rr.com/mwaugh/Aviation/Aircraft/AircraftCheckout.pdf>

This is a Adobe PDF document.

- Obtain a copy of the CH2000 POH and review it.
- If you have not flown with a Horizontal Situation Indicator (HSI) refer to your textbooks for the theory and operation of an HSI.
- The aircraft has a Sandel HSI SN3308. You can review the documents from Sandel at:

http://www.sandel.com/ehsi_support_documentation.htm

- Review the operation of the Garmin 430. If you have not used a Garmin 430 before you should download the software simulator:

<http://www.garmin.com/products/gns530>

You should also access the Garmin FITS training:

http://www.garmin.com/manuals/288_SampleTrainingSyllabus.pdf

At a minimum you should complete the home study portion of the syllabus and discuss the flight portion with your instructor,
